October Sky is a film that will steal your heart, fill your mind with vivid imagery, and lift your spirit. The tale of Homer Hickham and his dream of creating a rocket seem so simple at first, especially when the film is set in a mining town, where the future is as clear cut as the lumps of coal in the mine. But Homer cannot follow in his father's footsteps. With the encouragement of Miss Riley, (a friendly teacher), members of his father's staff, and his friends, Homer attempts to make his dream a reality.
